

Snow Day ideas from Mrs Clarke for P1,2 and 3.

Snowman Sums

Can you draw some snowmen like this one? Put two numbers on the snowman like the one in the picture then underneath write your sum and the answer. If you are in P2 or P3, you will need to use bigger numbers for your sum or maybe you could do some take away sums?

$$3 + 5 = \underline{\quad}$$

Another idea!

If you don't like drawing, can you make up some sums of your own the same as the ones you have been doing in class? Remember to write your answers down.

Write a Story!

Can you write a story to tell me what you are doing on this snowy day? Please bring it in to me on your return to school and I will award stickers for people who have made a good effort! If you are in P3, remember to use your VCOP.

Create a picture

Create a picture of children playing in the snow in brightly coloured clothes or maybe you could draw yourself all wrapped up for winter. You could label your items of clothing. If you have any craft materials at home, you might like to use these in your picture. Bring your pictures in to school and I will make a display of the best ones!
