

Use a map to find the place names or areas for the locations of Scotland Big Five. Then complete the table below. The first one is an example. You can research another Scottish animal of your choice and add it to the table.

- Red Stag
- Red Squirrel
- Golden Eagle
- Harbour Seal
- Otter

Research what habitat each animal needs and why the area they live is suited to them.

Animal	Where would you find it?	What features of the landscape make it a suitable place for this animal to live?
Red Stag	Across many areas of Scotland very common in the Highlands. Aviemore, Isle of Rum, Newton Stewart	Mountains and Moorland. Less populated, rural so deer have are free to roam without being scared away by people. Wild areas with grasses, shrubs and trees for deer to eat.
Red Squirrel		
Golden Eagle		

Harbour Seal		
Otter
